KYLE SCHOENER
STUDENT, RESEARCHER, TEACHING ASSISTANT

About Me

I'm Kyle. I love the outdoors and exploring nature with my friends. I take videos and pictures as a hobby and upload them to the internet sometimes. I'm also an avid programmer looking for an internship to learn even more about the industry. I'm very outgoing and personable and can get along with anybody. I'm most excited to meet and work with new people through an internship!
